POWERink
Power Systems

Generator set

Sound-proof type

QSV250XS-AU

SPECIFICATIONS

POWERink
Power Systems ®
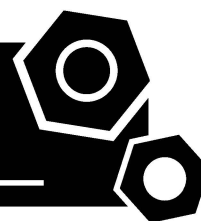

1 Standards & Conditions

Design Standards

The designs and the productions are in conformity with:

- Conformite Europeenne (CE)
- ISO8528-5:2005
- AS 3000-2018
- AS 3010-2017

Environmental Operating Conditions

- Installation place: Outdoors or indoors (well ventilated).
- Ambient temperature: -25℃ to 50℃. The coolant heater is needed when the temperature is below 5℃
- Humidity: Less than 90%.
- Altitude: Below one thousand (1000) meters above sea level.

Factory Inspection

- Inspection items.
- Protection devices working test.
- Starting ability in normal temperature.
- 50% rated power load moment capability.
- Voltage deviation and speed variation: 0%, 25%, 50%, 75%, 100%, 110% Load.

Painting Process

- Painting process specifications and colors are based on the manufacturer's standard.
- The customer could also choose the color which the manufacturer offers.

2 General Features

- PowerLink engine 6D10TAG1
- Close coupled to PowerLink alternator PL3H
- Microprocessor control module PLC-920
- Main circuit breaker: 400A
- Rotate speed governor: Electric fuel control
- Excitation system: Self excited,SHUNT
- A.V.R model: SX440
- Key switch
- Emergency stop switch
- ATS(automatic transfer switch)receptacle

- Remote run connector
- 2x12V/120AH sealed for life maintenance free battery
- Lockable battery isolator switch
- Powder coated canopy
- 45℃ radiator
- Steel base frame
- Vibration isolators between the engine/alternator and base frame
- Dry type air filter
- Base fuel tank for 26 hours running
- Drain points for fuel tank
- Operation Manual / Specifications

3 Equipment

General technical data
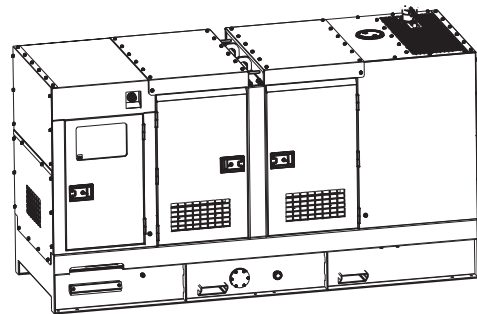

Model	QSV250XS-AU
Tank capacity	1400L
Dry weight	4500kg
Sound pressure level @ 7m	72.0dBA
Dimensions L×W×H	4422x1515x2382mm
Standby Power	275kVA/220kW
Prime Power	250kVA/200kW

Voltage	380V	400V	415V
Ampere	379.8A	360.9A	347.8A
Genset Fuel Consumption			

Frequency/Load	25%	50%	75%	100%	110%
50Hz (L/h)	15	28	40	54	60

Dck Yf˙GmghYa
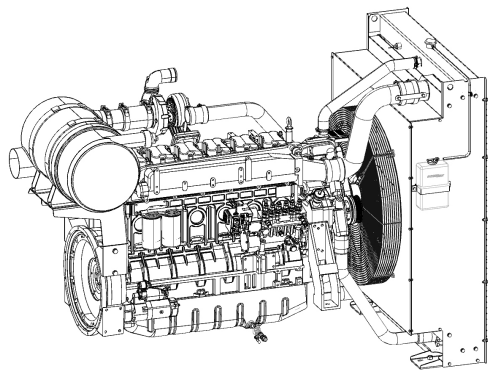

Engine Manufacturer/Brand................................. Powerlink
Engine Model... 6D10TAG1
Dimensions L×W×H............................. 1796×767×1275mm
Dry Weigh (approx.) 1000kg
Number of Cylinders.. 6
Bore 126mm
Stroke 130mm
Displacement... 10.0L
Compression Ratio 17.0
Type of injection... Direct injection
Intake System............. Turbocharged and charge air cooled
Intake Resistance ....≦5kPa
Cooling System ....Water cooled
Fan .... Pusher
Battery Voltage 24V
Type of Fuel.. No.2 or ASTM D975
Type of Oil .... API CF/SE or CCMCF4
Oil Capacity 23.0L
Type of Coolant ....Glycol mixture
Coolant Capacity 25.0L
Back Pressure ....≦10.1kPa
Standby Power 253kW
Prime Power 230kW

Alternator
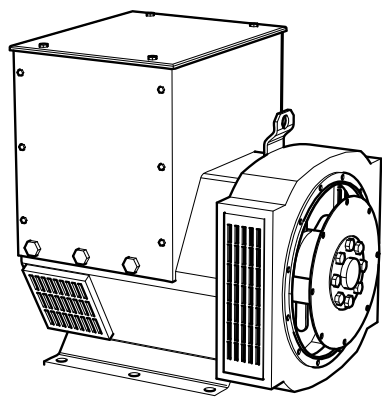

Alternator Manufacturer/Brand .... PowerLink
Alternator Model PL3H
Exciter... Brushless
Cooling Fan .... Cast alloy aluminum
Windings..100% copper
Insulation Class .... H
Winding Pitch.. 2/3
Terminals 12
Drip Proof IP23
Altitude...≤1000m
Overspeed 2250rpm
Air Flow..N/A
Voltage Regulation ....±1.0%
Total Harmonic TGH / THCat no load < 1.5 % - on load < 5%
Telephone Interference.............................. THF<2%;TIF<50
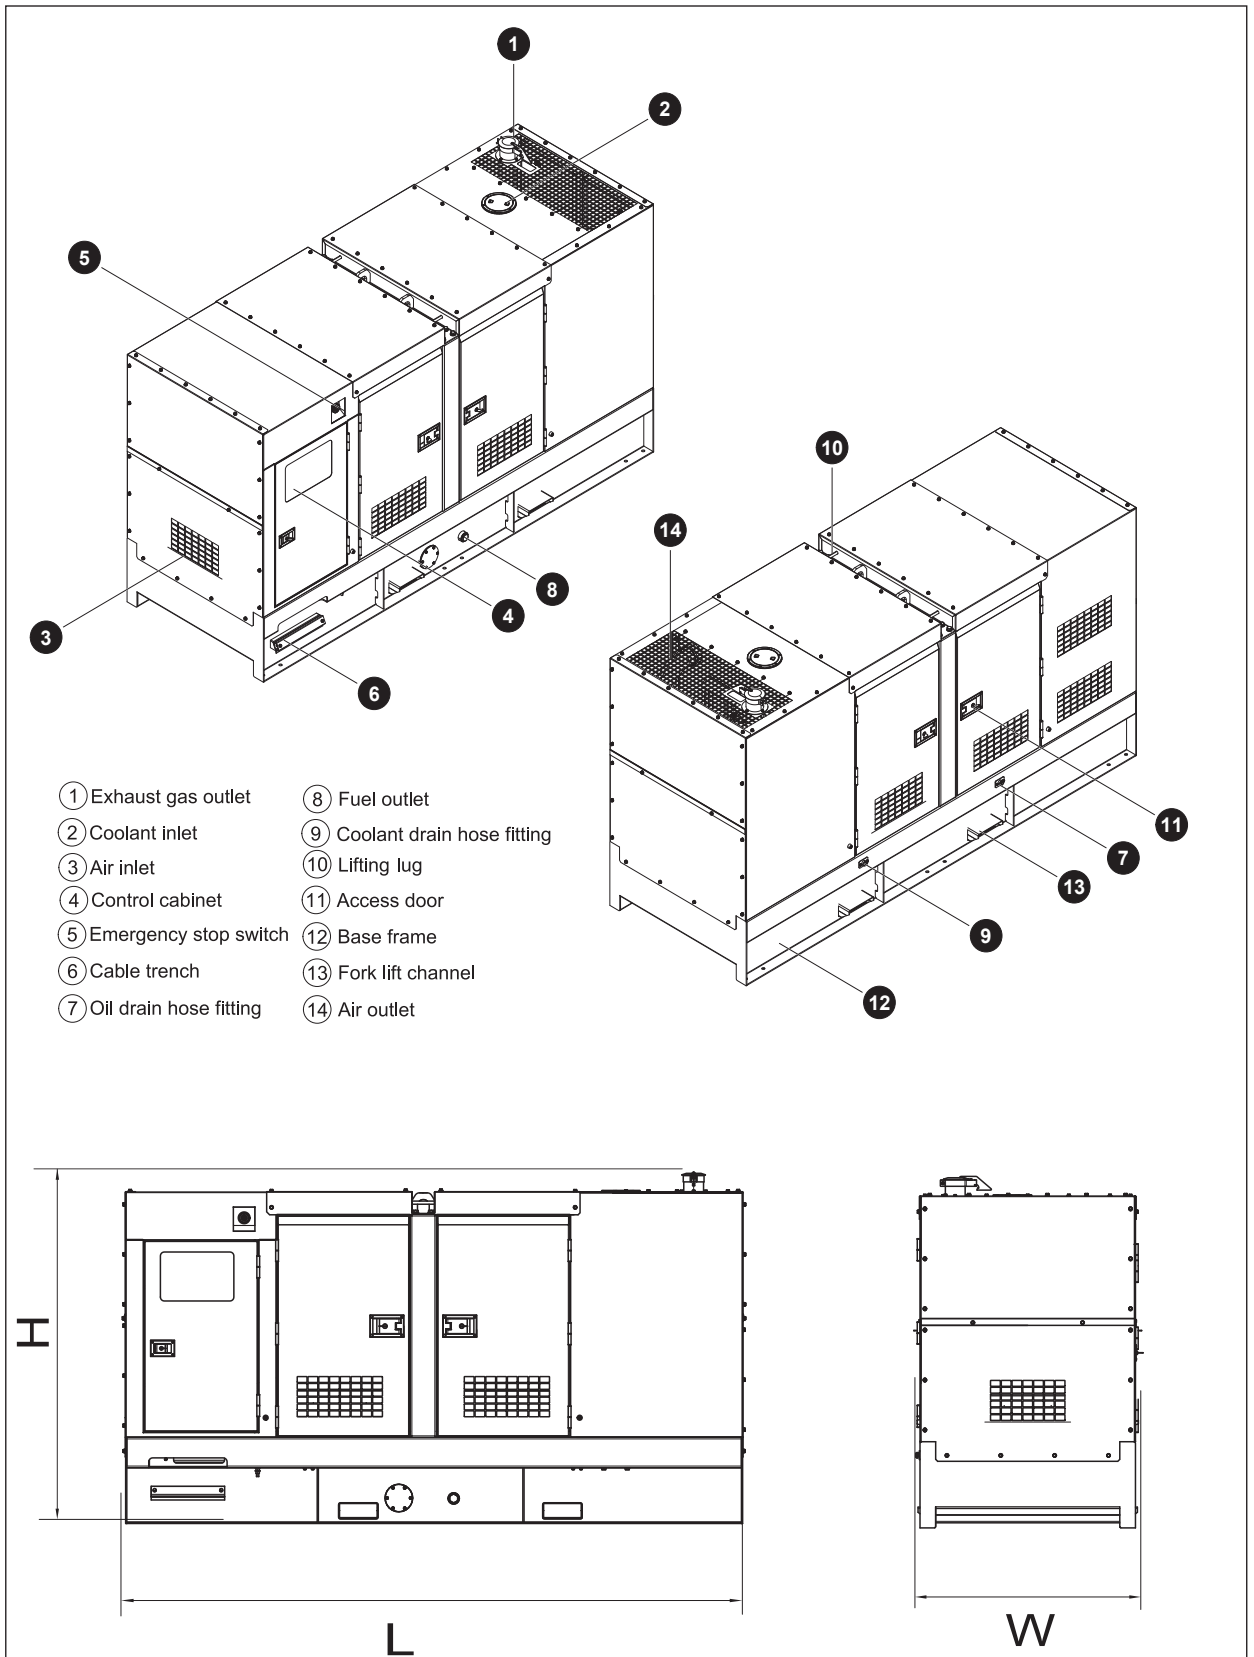

PLC-920 Control System
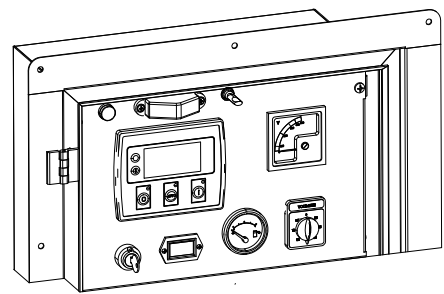

PLC-920 is an advanced control module based on microprocessor designed to control the engine via push buttons on the front panel. The module is used to start and stop the engine and indicate fault conditions, automatically shutting down the engine and giving a true first up fault condition of an engine failure.
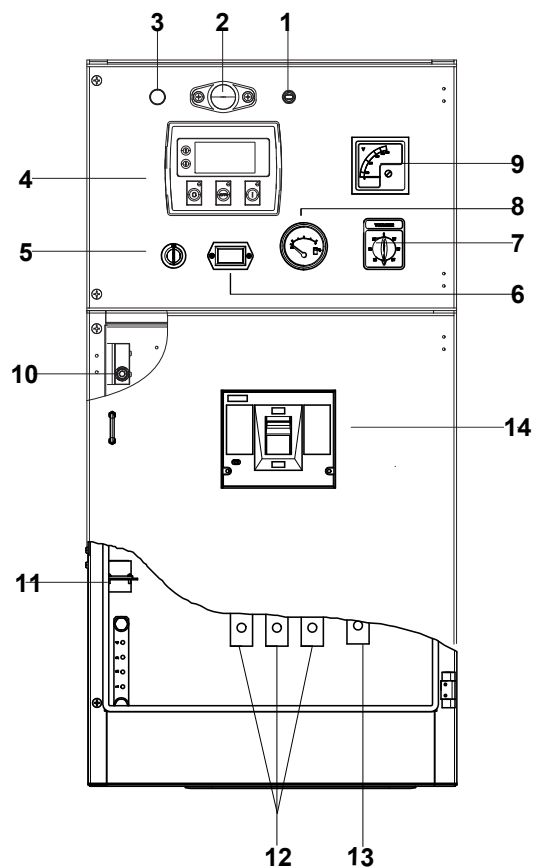

Standard Control Function

- Manual Engine Control Module
- Low Oil Pressure
- High Engine Temperature
- Auxiliary Shutdown
- Overspeed Protection
- Protection hold-off timer
- Charge Failure warning

4 Overall Dimensions

1. Exhaust gas outlet
2. Coolant inlet
3. Air inlet
4. Control cabinet
5. Emergency stop switch
6. Cable trench
7. Oil drain hose fitting
8. Fuel outlet
9. Coolant drain hose fitting
10. Lifting lug
11. Access door
12. Base frame
13. Fork lift channel
14. Air outlet

5 Control System

Control & field wiring cabinet

Ref.	Description
1	Control cabinet lamp switch
2	Control cabinet lamp
3	Charge indicator
4	Control module
5	Key switch
6	Time counter
7	Voltage changer-over switch
8	Fuel level meter
9	Voltage meter
10	Limit switch
11	Mains input/Remote control/ATS connector
12	Live wire terminal
13	Neutral wire terminal
14	Main circuit breaker
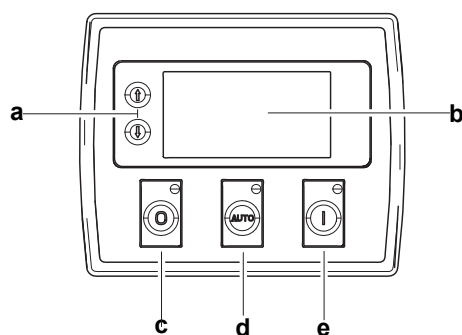

Control module

Ref.	Description
a	Navigation button£» Accept (Configuration mode only)
b	Main status display
c	Stop/reset button£» Next page (Configuration mode only)
d	Auto start button£» Decrease value/next item (Configuration mode only)
e	Start button£» Increase value/next item (Configuration mode only)
